### "A KENTUCKY ROMANCE" PACKING THE NOVELTY

Miss Phipps and her talented company are packing the Novelty theater nightly and the show goes with a snap and dash that shows careful rehearsal. Miss Phipps, the beauty, is all that could be desired, and the remainder of her clever company give her excellent support.

The usual mid-week matinee will be given today and a special matinee will be given tomorrow, Thanksgiving day.

The band of pickinics and the race horse add materially to the production and the specialty of Miss Fitzgerald is pleasing. For the coming week a farce comedy entitled "The Strange Adventures of Miss Brown" will be given and this play will serve to introduce Mr. Frank Frayne, the new comedian, who has an excellent reputation on the coast.

#### Notes.

Mr. Sulphur, having had a great many inquiries, wishes to inform all who had photographs made by him while in Fresno can have duplicates made for Christmas by addressing: P. D. SUTPHEN, 610 Marley Bldg. Portland, Ore.

#### Notes.

The business known as the Shelley Grocery, 1401 F street, has been sold to J. E. Roseman. Mrs. R. M. Shelley will pay all accounts and collect all accounts to date.

MRS. R. M. SHELLEY, Fresno, November 21, 1925.

How to succeed

In curing a cough, is to take the right remedy at the right time and that is S. B. Lung Tonic which never fails to give results. At Smith Bros' Drug Store.

Tag Day, November 28th: for Young Women's Christian Association.

A. J. Patterson, piano tuner. Main 1925.

## DRAWING NAMES FOR JURY DUTY

Griffith Support Case Will Not Come to Trial.

Parlier Farmers Interested in Outcome of an Irrigation Ditch Litigation.

Next Monday Court Room Clerk Dwell will draw from the term jury box the names of forty persons to be summoned for jury duty in Judge Church's department of the superior court. Judge Church will take up next month the calendar of criminal cases and the drawing of the names is in preparation for the trials of these and other cases.

**Pending Compromise.**

The domestic troubles on account of the first family of N. V. Griffith will not be aired in court here after all. In the case of his daughter, Miss Mamie Griffith, who sued him as a reputed wealthy man for a permanent maintenance at the rate of \$75 per month. The case was commenced in Los Angeles county, where she filed the plaintiff and her mother, who was Mrs. Vic H. Griffith. The defendant had the case transferred for trial to this county as the place of his residence and yesterday was the time set before Judge Church for that trial.

Attorney Barbour, representing the attorney in Los Angeles that filed the complaint, secured postponement of the trial indefinitely on the statement that negotiations for a compromise of the suit are pending and for which he knew may have been closed, though he was not advised on this score nor as to the details of the compromise. The postponement request was granted on the understanding that the case may come up in court, though the defendant was not in court, though he did appear later to learn whether the postponement had been granted.

The plaintiff is a daughter by the divorced wife of Griffith and described herself to be 28 years of age, in ill health, and consequently unable to maintain herself by work. Making much of the wealth of her father and specifically alleging in her complaint that he is a man whose possessions may be valued at \$100,000, she asked for the judgment of the court that he contribute monthly \$75 to maintain her and provide her with the common necessities of life and medical attention.

Another light on the case was cast by the answer of Griffith and on which he was apparently preparing to go to trial but for the intervening compromise. The allegation that he is worth \$100,000 was taken up particularly for a specific denial that he is worth so much "or anything like such sum," because, as he declared, all his means and property are involved in enterprises, the results of which are yet clouded by uncertainty, bringing in no income, but on the contrary requiring constant and large outlay, wherefore in all endeavor he pleaded he was unable to state how much he is in fact worth from a money standpoint.

Coming down to family matters, the local capitalist affirmed that it is more than twenty-four years since he was divorced from the plaintiff's mother, and that the daughter has resided with her mother all these years, and instead of being helpless and dependent has in fact been earning a livelihood in assisting her mother in business.

Emphasis was laid on the fact that he is and always has been willing to contribute and properly maintain her at a home of his choosing, but that also declined the proposition; that up to about six months before the filing of her complaint he did in fact provide for her a monthly allowance of \$25, besides providing with apparel fit for one in her sphere and station in life. That thereafter she refused to accept his allowances and insisted upon being given \$50 a month, and upon his refusal entered the suit in court demanding \$75 monthly as a permanent.

Griffith alleged that her mother acted and procured the daughter to make this money demand, not so much to benefit herself but in using her as a means and instrument to her own ends to annoy and harass him and force him to pay this demand to the daughter for the benefit of the mother in reality.

**Warring Over a Ditch.**

A courtroom full of farmers of Parlier in attendance before Judge Austin on the trial of a case involving the use of an irrigation ditch. Eleven of the number are the plaintiffs in the case, nine as plaintiffs and two as defendants with M. K. Harris as attorney for the greater and M. B. Harris for the lesser bunch.

The entire day was taken up with the case and the trial will consume another day. The defendants moved for a non-suit on the ground that there was no proof that the plaintiffs had any title in the ditch in dispute, but the motion was denied. The plaintiffs are R. M. Anderson, E. J. Baker, J. B. Russell, John Bonner, B. T. Wolf, B. S. Woodward, William Peverell, Thomas Brothear and W. A. Bloodworth and the defendants Thomas Mayfield and A. S. Humphrey.

The cause of action concerns a complaint filed to the right of use of the Highland ditch, a branch of the Fresno canal and irrigation company's water canal in the Parlier district. The plaintiffs assert that they have had for their land use of this ditch for twenty years, but that the defendants have interfered with the flow of the water by setting stakes in the channel, damming it up and cutting the banks at various times and on the east line of section 15-16-23 have interfered with the syphon under the railroad track, causing the water to back up and endangering the safety of the railroad embankment. Relief is sought by injunction to forbid the defendants obstructing the flow of the water.

The defendants claim on the other hand in a cross-complaint that the plaintiffs have interfered with a lateral ditch of theirs and that as to the main ditch a committee of the associated plaintiffs authorized them to use it, provided they would withdraw the lot from the ditch which they did. Since then the complaint has been made of their use of the ditch and in fact they have secured water appropriations from the canal company for their lands. There is the usual conflict in cases of this kind in the testimony of water flow obstructions.

**Suit on Picking Contract.**  
H. Hiral and O. Chizaka have sued W. H. Graham to recover \$347.40 under an agreement made here on August 6, 1925, to pick and place in sweet boxes all raisin grapes on the south half of lot 6 and on lots 6 and 7 and the north half of 8 in 16-23, in Level Orchard colony in Tulare county, when the raisin grapes on the southern half of 16-23 in Kern county for \$15.50 per ton—2 cents per ton for all raisins properly picked and placed on trays, 1-2 cent when trays have been turned and the balance per ton when the raisins were fully harvested, current market price of raisins, less 10% on the price crop of 1925 on the Formosa orchard in Kern county at \$15.50 per ton. So picked, cured and placed were 442,286 pounds of raisins and 219,914 of prunes, for all of which and the

hauling \$537.60 became due on which only \$260 has been paid.  
**Prison Sentence Affirmed.**  
Judgment on appeal was affirmed yesterday by Judge Austin in the case of Henry Bernier, who, after trial before City Justice Graham, was sentenced to imprisonment in the county jail for ninety days for an aggravated case of wife beating. This judgment has been pending unexecuted since about last May because of the appeal in the meantime the woman returned to her husband but within the last few days Mr. Bernier of the Humane society says he learned that Bernier has resumed his wife beating practices and on Monday he aroused the district attorney's office to action on the appeal with the result that, after incarceration for ninety days, now started Bernier, for the judgment of the lower court was without the alternative of a fine punishment.

**Dismissal Entered.**

Dismissal has been entered in the suit of John B. Haygood against C. H. Kazangian, the Sloan Fruit company and others instituted in July last. Dismissal was entered upon payment to plaintiff of \$240, leaving the case to be may have against the defendants by reason of a contract between Ida W. and John B. Haygood and H. Sarganack with C. H. Kazangian to deliver to him the Thompson seedless and Madera grapes on their vineyard for 1925 for \$20 a ton, amounting in all to \$2100, and Kazangian and Haygood released from any further claim under the contract.

**Suit in Partition.**

Clara Curry, as guardian of the person and estate of her daughter, Pearl Meyer of Kern county, has sued the American Petroleum company and H. M. Welsh for a partition of the 83.97 acres of the fractional north half of the northwest quarter of 30-20-15. All are tenants in common, plaintiffs in one action share as inheritance and Welsh three fourths in fee simple, subject to a right of conveyance to the company.

**Action in Divorce.**

Complaint in divorce was filed yesterday by Hannah Z. Neher against Henry P. Neher. They were married in Sacramento county and the separation is sought on the ground of his conviction of a felony in Colorado state. She was a McDonald before marriage and is a sister of the former policeman.

**Court Notes.**

Notice has been given in the estate of the murdered Fred Roetzsch of the appearance as a claimant of Widow Minna Roetzsch of San Francisco, mother and only heir at law of the decedent. Roetzsch was murdered by Ed Turpin on a farm near Fowler.

An undertaking in the sum of \$3507.86 was filed yesterday for Wyle M. Giffin with Mrs. C. C. Armstrong and E. G. Gower as sureties on appeal from the judgment for \$1753.98 against Giffin in the Andrew Abbott raisin accounting case.

The estate of Elizabeth Zedler has been appraised at \$1400.01, of which \$1253.26 is cash money.

**CIRCUIT COURT ACT BEYOND ITS POWERS**

Is Contention of Attorney General Bonaparte In Taking a Last Appeal in Standard Case.

WASHINGTON, Nov. 23.—Attorney General Bonaparte filed today a petition for a writ of certiorari in the Supreme court of the United States, urging that court to issue a writ of certiorari to the circuit court of appeals for the seventh circuit to reverse the judgment of that court reversing the ruling of Judge Landis in the case in which the Standard Oil company was fined \$29,240,000 on charges of violating the anti-trust law. The attorney general takes the position that the court of appeals was without jurisdiction when it reversed Landis' decision.

Much attention is also given to the original right of the defendant to appeal from Judge Landis' decision in the court of appeals. "Originality," says the petition, "was the basis of the trial court's decision, and was not tried and argued in the court of appeals. In giving him the right of appeal, the law never intended that the appellate tribunal should interfere with the sole discretion of the trial court in regard to the character, amount or the number of the appeals. To do so is to interfere with the discretion of the court on the one hand and the pardon power on the other hand."

**MUNICIPAL LICENSE ORDINANCE IS VOID**

SAN JOSE, Nov. 23.—Superior Judge Richards this morning handed down a decision in which he holds that the city license ordinance is void.

The action was brought before the court some weeks ago by the refusal of C. C. Ireland, a local business man, to pay his license, followed by his arrest and his application for a writ of habeas corpus. The writ today was granted and Ireland discharged. The ordinance, which is in violation of the ground that it grants special privileges and immunities to certain persons that are not permitted others; it authorizes the mayor to use his discretion in the matter of issuing licenses to engage in any of the classes of business specified in the ordinance, and this is held to be a violation of sections 1 and 21 of article 1 of the state constitution guaranteeing equal protection of law to every person and forbidding grants and privileges or special immunities to any; also as opposed to the provision of the fourteenth amendment of the federal constitution, providing that no state shall deny to any person in its jurisdiction the equal protection of the law.

**NOT THE ONLY ONE**

There Are Hundreds of Fresno People Similarly Situated.

There are no stronger proof of the fact than the evidence of Fresno residents? After you have read the following, quickly answer the question. Dr. G. F. Clark, city veterinary surgeon, and living at 1533 G St., Fresno, Cal., says: "For two years I suffered from kidney trouble and knew from the moment when exposure or overwork would bring on an attack. The suffering seemed to grow more acute as time went on and I finally became so bad that I was forced to give up and take to my bed for six weeks. The secretions from my kidneys were scanty and were accompanied by a terrible scalding and burning sensation, but finally gave up hope of ever getting well. I was confined to my bed and hardly able to endure my suffering when my son procured a box of Doan's Kidney Pills for me at Barker and Colson's drug store. They went directly to the seat of my trouble and I continued their use until every difficulty was corrected. I feel it my duty to recommend Doan's Kidney Pills to every sufferer of kidney trouble."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## "MAN IS AS OLD AS HIS STOMACH"

This Persian Epigram is the Real Gauge of a Man's Life

The Persians were a very sagacious people, noted among other things for their deep thinking on life and the things which make up life. The above epigram shows the wisdom of their thought.

When a man's stomach is able to furnish new material to the system as fast or faster than the natural decay of man requires, then such a man lives his fullest and his best.

When through wrong living or disease a man's stomach begins to fail the other organs and takes from the blood strength which it cannot give back in nourishment taken from food, then begins the death of man and he decays fast. The stomach is strong, splendidly strong, and can send an untold amount of blood and energy to the other organs which it cannot give back in nourishment taken from food, then begins the death of man and he decays fast. The stomach is strong, splendidly strong, and can send an untold amount of blood and energy to the other organs which it cannot give back in nourishment taken from food, then begins the death of man and he decays fast.

Stuart's Dyspepsia Tablets contain the most perfect digestive qualities known to science and at the same time the most powerful. They will assist with the poisonous juices of a sick stomach and digest food in spite of this handicap.

They will stop gas making and had breath. They tone up the nerves of the whole digestive canal, including those of the stomach.

A single ingredient contains strength enough to digest 3000 times its weight in mixed food.

They have stood the test of time and today are more sought after than all their imitations combined.

They are used and endorsed by 40,000 physicians. Every druggist sells them, price 10c. It costs nothing to demonstrate their value. Send us your name and address and we will send you a trial package by mail free. Address P. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

## Optical Probity

In no business is the possession of this quality so essential, for a dishonest optician will ruin the eyes. The Kryptok that we introduced over five years ago, and have steadily declared to be the best far-and-near glass the world ever saw is now sold all over the world.

Honest opticians are selling the genuine Kryptok and giving a written guarantee with them. Dishonest opticians are laying traps for the unwary by advertising Kryptoks and substituting an imitation when the customer gets in the store. Demand the written guarantee with every pair and thus save your purse and save your eyesight.

# TOMORROW

Thanksgiving—the day when Who and Liquors bought either for yourself or your friends' use, will be tested. In some cases it will be an "eye opener," in others with the Dinner, then as a Cordial. There will be many who will feel they have been misled in buying the goods they have for instance: Whiskies will be found to have been adulterated or matured through unnatural means. Then, the wine that was recommended as being "very good," you will find is not the kind that deserves such glorious praise.

BUT—if you have bought your goods of us, you can depend on them as being absolutely as we represented them to be—they will meet your every requirement. The Whiskey will be found to be pure and as smooth as velvet, matured in charred oak and delightfully palatable. The Wine you will find is unexcelled; its color is rich, its sparkle—that's because the wine we sell is made of pure, whole, healthy grapes—just as we represented.

NOW—it's up to you! If you have not bought your Thanksgiving supply of "Wet Goods," don't take chances—come to us. But if you have, of course all we can ask is that you bear us in mind the next time. If for some reason you do not care to come to our store, why then phone Main 175 and we will deliver as accurately as if you had placed your order with us in person.

We suggest:

Whiskies, Spring 1901	Irish Whiskies	Manhattan and Martini Cock-
Mt. Sterling O. K. Bourbon	Champagne (the best)	tails
Old Ky. Taylor, Bourbon	Imported Rhine Wine	Apricot Cordial
Old Jordan, Bourbon	Imported Bordeaux Wine	Claret and White Wines
Old Taylor, Bourbon	Spanish Aquavit	Ginger Ale
Old Mabrayer, Bourbon	Swedish Brandy	Unfermented Grape Juice
Mt. Sterling O. K. Rye	Apple Brandy	Imp. and Domestic Cordials

As likely Wines and Liquors for your Thanksgiving feast. We have many other brands and sorts of Imported and Domestic Goods, which would take too much space to enumerate. We sell everything reliable. If it's under the sun, it's here.

## WHAT USE IS A WOMAN?

"What use is a woman, anyway?" To which the most obvious answer is another question, "Why should a woman be expected to have any use?" Is she not her own excuse for existence? But, the professors do not think so. Mankind, individually, has been interested individually in individual women since uncolored ages, but the professors, no longer dry-as-dust, have suddenly manifested an analytic and scientific interest in women collectively, with some startling results. So the question, "What use is a woman?" is no longer a joke. It has become the most popular present subject of serious research.

Answers are various. A few years ago a bold pioneer of the new cult first proposed the theory that woman is a case of arrested development. Racially, she represents a former stage of civilization—the same stage in which man was when he, too, wore feathers in his hair. Individually, she remains always a child, or at most an adolescent. No woman will ever acknowledge to years of maturity, simply because she realizes that she never develops the maturity to justify these years. What happened to the author of this theory we do not know. He has never been heard from since.

A more recent author has described woman as a survivor of the cave-human stage. Because the cave woman had to block the mouth of her cave, with stones or fire, to keep out beasts and men, the modern woman bolts her door and trembles in constant fear of "burglars"—by which she means, not actual housebreakers, but merely the modern objectification of her hereditary dread. Also, the treachery of women to each other, and their loyalty to even the least deserving of husbands, dates from the time when women fought and died for husbands, and then were uniformly beaten by them. Women and dogs have been taught, by generations of beating, and the ruthless extermination of those that did not like it, to make a virtue of kissing the hand that smites them. The author of this theory also has been silent, (or silenced) for some time, since its appearance.

A contemporary theory was reflected in a recent magazine article on "The adventitious character of women." The author explained that woman had reached her present state of ornamental usefulness by the simple process of being ousted by male competition from all useful occupations. Formerly man was the hunter and fighter, but women conducted all the productive industries. A young warrior, looking about for a wife, would prefer a muscular old woman, well versed in basketry and farming. But when men exhausted the game and quit fighting, they took up the women's work and ousted them at it. They first usurped the fundamental occupations, and now they have surpassed the women even as dressmakers and cooks. The best baby nurses learned their business from men, and a man, Froebel, taught the world how to play with children. Ousted from everything else, women are now reduced to the fascinating occupations of charming men and splitting each other.

Perhaps the most startling theory of all was propounded by Professor Muensterberg in his article on the moral and intellectual benefits of getting drunk. He explained the fact that few women can drink even a little wine without feeling it by asserting that a woman's normal state, without drinking, is about that of a man reeling after several drinks, and therefore a woman's first drink is her fourth.

Finally comes the theory of Professor Ross, explained in a lecture to the Chicago Association of Collegiate Alumnae Sunday, that woman is a luxury. "Man wants woman to be helpless, cowardly, afraid of mice," said the distinguished professor. "As we get farther away from the primitive conditions of civilization, man comes to have less and less of a desire for a helpmate, and insists more and more that woman shall present herself to him in the light of a luxury. There is a large proportion of American men who really prefer wives who don't know too much. They want an over-sexed woman—one who will scream out when she sees a mouse and has to be helped down from a street car step."

To which may be added the newest theory, that women are divided into three parts—druggies, pets and old maids. Most married women are over-worked or under-worked, and both sorts are unhappy. Against them may be measured the independent business women, fortunate, like men, in having a normal amount of wholesome, interesting labor, but because they are unmarried, shut out from the normal life of women. And they are unhappy, too. After a certain age, a woman wants either a husband or a job. Whichever she has, she wishes it was the other.

All of which leads to only one conclusion. What that conclusion is nobody knows. But President Roosevelt has appointed a commission to find out. When it reports, then we shall doubtless understand.

The San Francisco supervisors have passed to print an ordinance forbidding the advertising of clairvoyants, fortune-tellers, and their whole tribe. It is a good thing. These gentry are all frauds, ranging from the sneak-thief to the grand-larceny grade. It is probably impossible to suppress them, but they may at least be prevented from advertising their spurious services.

## THE SPEAKERSHIP

The contest for the speakership of the next Assembly, between Phil Stanton of Los Angeles and former Speaker Beardslee of Stockton is reported active, with both candidates claiming a majority. Frank M. Rutledge and Nate Ogden are also reported in a receptive attitude toward representing everything that is worst in the San Francisco push, and Rutledge a high degree of personal decency and a clean country constituency, but probably lacking the backbone to make a straight fight, on the one side. The result will probably be the election of Beardslee or Stanton—preferably Stanton, as the less evil.

But while this result is doubtless inevitable, we do not think it ought to be permitted to go by default. Next after the governor, the speaker of the California assembly is probably the most powerful man, for a brief but critical two months, in the state. It is he who organizes the legislature, in the interest of either the people or the bosses. That is one ought to be squarely raised. There ought to be some candidate for speaker making the fight on a square platform not to organize the assembly in the interest of the political bureau of the Southern Pacific. Such a candidate would presumably be defeated, but it is a cause worth getting beaten for. And if the issue can be drawn sharply enough, there is perhaps a fighting chance of victory. Constituencies will watch their representatives, and some of them may find it more comfortable not to vote for a candidate known to be committed to the policy of delivering over the legislature bodily to a foreign corporation—as Beardslee did, once, and Stanton would probably do again. The chance is worth fighting for, anyway, especially as to lose it would be also victory, in another form.

There will be no selfish rivalry for the honor of leading this presumably forlorn hope. Assemblyman Drew of this city is probably the logical candidate, but Assemblyman Hewitt, Assemblyman Costar, or any man of like quality, would be equally acceptable. What is wanted is a man who will make the run on the issue, and who would rather be defeated than compromise. Such a man, in such a fight, might get elected. And, even if defeated, he would have the satisfaction of helping to make this the last legislature in which such a defeat would be possible.

We suggest that the reform members of the legislature agree on some one of their number who shall be requested to make this fight, and then all get behind him, in a struggle to win if possible, and to draw the issue, anyway.

## A PLACE FOR KNIGHT

George A. Knight in an Examiner interview attributes to the Republican the first suggestion of his name for secretary of the navy. Bless you, not The Republican merely referred to an apparently inspired dispatch from Washington, and added to it a partial list of eminent disqualifications of the California megaphone for the job. To this list the genial George now appends an equally convincing list of his own, and the subject is not exhausted yet. So, by unanimous consent, in which Knight himself joins, the naval portfolio is not for him. Rather, no doubt, he aspires to a place as chief siren in the coast life-saving service, or even, perhaps, as the heaviest gun of the coast defense. Really, if Knight must have a public job, we propose him for chief reading clerk of the house of representatives. That is one of the most strenuous positions in the government service, and one of the best paid. The salary, if we mistake not, is the same as that of a member of congress, which is slightly less than that of a cabinet officer. But, of course, the expenses are also less. If it be objected that the honor is less, the reply is that the publicity is greater. The incumbent is in the public ear all the time. And it is a job for which our California Stentor is admirably fitted. Its main duties are to call the roll and to read the formal proceedings, in a voice that will penetrate the intolerable din of the popular legislative chamber. It is work which few men can survive long, but for George Knight it would be play. And since the credit of initiating a Knight boom for one office has been thrust on us

quite undeservedly, we may as well accept the responsibility, and hereby nominate him for another and more appropriate appointment.

## A THIN DIET

The grape growers' association sends out a circular by Professor Twilight, demonstrating that wine is a food. You can get nearly as much nutrition out of a dollar's worth of wine as out of a cent's worth of bread. Wine, also, is antiseptic. It will prevent cholera, as well as weak lemonade, and is nearly as good a preservative as a light sprinkling of salt. Eighty-five per cent, or more, of wine, is described as consisting of the most useful of all foods—water. In fact, wine may be demonstrated to be nearly as nutritious as milk whey, with all the butter and cheese taken out. And therefore the prohibition arguments are demolished.

The argument is doubtless good. But, after all, if the grape growers want to find the real reasons for drinking wine, they will find them best in the verses of old Omar Khayyam: And Omar took along a loaf of bread, for the food part.

"We put our noble animals, we pat their shaggy hair, and stroke their fine heads, and pinch their ears lovingly," says Temperance Evangelist Murphy, "and then we expect to use the same method with human beings."

But it is well to get introduced, first, at least before reaching the ear-pitching stage.

STOCKMEN ENDORSE  
FOREST SERVICE

Unjust Criticism of Supervisor Shinn  
Calls Forth Words of Praise from  
Fresno County Association.

The Fresno Stockmen's Association, including nearly all the stockmen between the San Joaquin and Kings rivers who take livestock into the Sierra Forest and owners of hogs, sheep, cattle and horses, has put itself on record as favoring forest regulation, and endorsing the administration of Supervisor Shinn. Upon reading the criticism directed against Mr. Shinn in Mariposa county, the cattle association forwarded to him the following letter:

Fresno, Cal., Nov. 17, 1928.  
Mr. C. H. Shinn, Forest Supervisor,  
North Fork.  
Dear Sir:—We are sorry to learn from the daily press that you have been criticized in your official capacity by certain persons in Mariposa county. Your treatment of the stockmen of this portion of the state has been so uniformly fair and just while at the same time strict in the enforcement of the law, that we feel that we should in justice to you express our entire confidence in your integrity and fairness.

We have talked with all of our members with whom we have met since seeing these criticisms, and they all agree with us in this opinion of you as a man and as an official.  
Yours very truly,  
THOS. E. BACON,  
President Stockmen's Association, Middle Division Sierra Forest.  
J. D. COLLINS, Secretary.

## Silverware

A dainty piece of silver is a most pleasing gift. Our patterns are selected for exclusiveness of designs as well as for serviceable weight and quality.

The new flat ware designs in both sterling and plate are plain and are either bright or soft gray finish. Hollow ware is designed to harmonize with the flat ware.

Sugar spoons, cream ladles and other fancy pieces. Sterling silver gray finished patterns. Substantial weights. Splendid values for \$1.25.

A few of the many desirable things in silver are teaspoons, knives and forks, oyster forks, bouillon spoons, berry spoons and other fancy pieces, bakin' dishes, cream and sugar sets, bon bon dishes, etc.

## Closed All Day Tomorrow--Thanksgiving Day

We Are Hemming All Linens  
Bought Today Free  
of Charge

That's a big help to the busy housewife, and it makes this sale all the more attractive. We are selling the best linens in Fresno at prices that compel respectful attention.

There's the Kutner quality, and the Kutner guarantee behind every yard of linen in this sale, and that's as important as the low price. Again we repeat the good specials:

Double damask cloths with 26 inch napkins; splendid linens; beautiful patterns.  
72 inches, 81 inches and 90 inch widths, in separate cloths and napkins to match from \$9.50 the set up to \$25.00  
a yard cloths, plain damask for embroidery and hem-stitching ..... \$3.50

## Demonstrations Today

Armour's Extract of beef demonstration will serve "shrimp wiggle" and cream of celery soup free today.  
Here's the way to make "SHRIMP WIGGLE": Melt butter and add flour, with salt and paprika, stirring constantly, then pour on gradually the milk as soon as the sauce thickens, add extract of beef and shrimp broken in pieces and the peas drained from their liquor.

The ingredients: 1-2 teaspoonfuls Armour's Extract of Beef, 1-2 teaspoonfuls salt, 4 tablespoonfuls of butter, 1-2 cups of milk, 2 tablespoonfuls of flour, 1-2 teaspoonfuls paprika, 1 cupful shrimp, 1 cupful canned peas.

## Magic Beauty Pins

A demonstration of the uses of a number of needed toilet accessories is being held near the main 1 street entrance. Pretty collar supports, new belt buckles, new styles of beauty pins and pierceless earrings. Many catchy devices among them. Inexpensive novelties priced from ..... 20¢ to \$1.25

## Hair Goods

Blink Burke's Cherry Puffs are being shown in the Hair Goods section. It will interest those who want to follow the new way of dressing the hair. Then there's the Payche knot and the new French models. You can learn all about them by visiting the hair goods sections. Pompadours, Curles, Puffs, Switches, Etc., are being shown and at very reasonable prices.

The Green Tag Sale of Women's Garments  
Blossoms Out With Many Added Bargains

This is one of the most successful sales we have ever planned and its success is due wholly to the excellence of its values. It has really done its own advertising. Those who have attended the sale, have advised their friends to take advantage of its bargains, and as a result it has been tremendously successful. These specially good features for tomorrow:

\$40 Tailored Suits \$31.95  
You can choose from ten pretty models and colors, such as the Raven, Taupe, Wistaria, Catawba, Canary, Stone and Black.

\$15 Empire Coats \$12.95  
They sold early in the season for \$17.50, but the second lot we secured at a lower cost so have marked them at \$15.00 during the green tag sale at ..... \$12.95

\$20 Women's Suits \$16.95  
A small assortment of well tailored garments in this lot.

\$10 Black Voile Skirts \$7.95  
A timely saving opportunity. These are nicely trimmed with satin folds of a good quality, wiry voile.

\$12.50 Black Voile Skirts \$9.50  
New flare models; prettily

trimmed with folds and buttons; good black voile.

\$7.50 Mixture Skirts \$3.95  
We are closing out during this Green Tag Sale a number of good, serviceable skirts left from a former sale, the values ranging up to \$10.

\$10 Mixture Coats \$5.95  
They're long, loose tourist models, in a variety of dark and light mixtures.

\$25 Tailored Suits \$18.95  
These are all new and stylish garments in the new fall ideas in cut and pattern of fabric; all with flare skirts.

\$30 Women's Tailored Suits \$21.95  
Modified directorio ideas prevail; some with satin trimming and skirts with row of buttons.

\$35 Novelty Suits \$26.95  
These are in exclusive models, one of a kind; all cut in the newest fall mode; distinctly different from most suits shown at this price; all the leading fall fabrics; long coats with flare skirts.

\$50 Novelty Suits \$41.95  
Only a handful of these pretty new styles left to choose from, so we can't promise these to be here long.

Good Winter Waists 68c  
Cotton waists in winter weights; waists that have been made to sell at \$1.00, and which we have been selling for 85c, are now in this November trade movement for 68c; plaited, tailored ideas; nice range of winter plaid patterns.

Sale of Sample Shoes For Women \$1.69  
We were fortunate enough to pick up close to 300 pairs of these shoes at a price that enables us to sell them satisfactorily at \$1.69, when they were made to sell at \$3.00 pair.

You are not interested in the details of how we got them, so we will skip that portion of the story. The shoes are in pretty patent leathers and kid skins, stylishly built, new, short vamps; Cuban or military heels, and in flexible or heavy soles; all sizes and nearly all widths. Choose yours today if possible; pair ..... \$1.69

## WEATHER

SAN FRANCISCO, Nov. 24.—The storm line moved eastward and is now over Utah and Colorado. Snow is falling throughout the Rocky mountain section and it is raining in Washington, Oregon and along the California coast as far south as Cape Mendocino. Cool weather prevails throughout California and light frosts will probably occur Wednesday morning in the interior. Forecast: San Joaquin valley—Fine Wednesday, light frost in the morning; light north winds.

## General Conditions

Moderately high pressure, with nearly stationary temperature and cloudy weather, occupies the greater portion of the interior of the United States. With centers of depression over the southern Rocky mountains and the upper Mississippi valley respectively, it has caused general rain or snow over the Rocky mountains and all sections westward in the Pacific coast, and also over the Mississippi and Ohio valleys and the Lake region. The heaviest precipitation occurred in Illinois and Arkansas, with 1.50 inches at Cairo and 1.14 inches at Little Rock. Cloudy cool weather prevails in all sections, except in the extreme south. Snow is falling in Idaho, Arizona and New Mexico and it is falling in Oregon, Minnesota, Illinois and Ohio. The line of freezing temperature extends southward into Arizona and Texas, and a minimum temperature of 11 degrees is reported from Havre Montana. Fair weather is indicated for Fresno and vicinity tonight with frost in the morning.

## BIG AUTO RACE IS OFF TODAY

Complete List of Starting Cars  
Announced.

One of the Racing Machines  
Crashes Into Tree, Killing  
Mechanic.

SAVANNAH, Ga., Nov. 24.—All of the foreign and American drivers who are to pilot cars in the international light car and grand prize races here were called together tonight at the headquarters of the Automobile Club of America in the Hotel de Soto and given their final instructions. The light car event—a twenty-lap, joint around a short ten-mile rectangle—will be started at 11 o'clock tomorrow forenoon and the indications point to a fifteen-minute race.

## LETTER FROM A FORTY-NINER

Could Not Obtain Relief from Catarrh  
Until He Had Used Hyomel.

Here is a simple, interesting and sincere letter from a rugged pioneer of '49, who braved the dangers and hardships of the overland trail to California. Surely the sincerity of this letter should strongly appeal to those who are afflicted with catarrh, and in which they are now held by that ruthless and most powerful wreckers of health and happiness: Catarrh.

Santa Rosa, Cal., May 5, 1908.  
Booth's Hyomel Co., Buffalo, N. Y.  
Dear Sirs:—Some years ago I was afflicted with catarrh, and tried a number of remedies, but received no relief. I was told by a friend who had been using your Hyomel, and thought I would receive a great benefit and perhaps a cure. I purchased an outfit, and before I had used the bottle I noted a marked relief.

I used it for a month or so, and thought I was cured, and stopped using it for a year or so. Thought I was getting catarrh again, and started using it again, and kept it in the house and used it every morning once a day, and keep myself clear of catarrh. I consider it the best catarrh medicine that is used. I often recommend it to my friends. I am 51 years old. I came to California in 1849, and of course am not as vigorous as I was 48 years ago. My address is 841 4th St. Yours truly, W. Mock.

Hyomel (pronounced High-o-mel) is guaranteed by the San Joaquin Drug Co. not only for catarrh, but for grip, coughs, colds, bronchitis, croup, of infants, asthma, and all diseases of throat and lungs. A complete outfit, including inhaler, costs only \$1.00; extra bottles of Hyomel if afterwards needed cost but 50 cents. Ask the San Joaquin Drug Co. about it.

## MRS. LEE WARREN IS HOME WITH PARENTS

Former Miss Nellie Summers Back in  
Fresno, Because Husband Failed  
to Provide.

Mrs. Lee H. Warren, nee Miss Nellie Summers of this city, who created a furor of excitement here last summer by eloping in company with the young medical student who later became her husband, is home again. She arrived last Friday from Cleveland, Ohio, where her husband is said to be finishing his education in a medical college.  
It is rumored that Mrs. Warren returned to the parental roof after money had been sent by Dr. Summers in order that she might return to Fresno. It is also said that the young Mrs. Warren was forced to come home, as her husband did not prove a good provider and it was difficult for her to get the necessities of life.

However, despite the reports that her husband had starved her, the former Miss Nellie is said to still love and cherish the man with whom she eloped, and still maintains confidence in his fascination. For her which was noticeable during the trial of Warren in the local court on a charge of kidnapping.  
Mr. O. P. Summers, father of the girl, refused to discuss the return of his daughter yesterday, only stating that she is home on a visit to the folks. "I don't know how long she will remain in Fresno," he said.

## 100 MILE MOTORCYCLE RECORD IS LOWERED

**BIRMINGHAM, Ala., Nov. 24.**—Robert Stubbs of Birmingham today rode a motor cycle 100 miles in 1:47:44 on the fair grounds track, lowering the 100-mile record, held by Stanley Kellogg of Philadelphia, 2:05:36.  
Today's race was under the sanction of the Motorcycle Club of America.

## FLYNN WINS FROM BATTLING JOHNSON

**LOS ANGELES, Nov. 24.**—Jim Flynn of Pueblo won from Battling Johnson of this city in a ten-round boxing contest tonight at McCahey's arena. No decision was given in the ring, but Flynn clearly had the best of the bout.

## SCRIPPS INVITES HENEY TO VISIT "MIRAMAR"

**SAN DIEGO, Cal., Nov. 24.**—E. W. Scripps, the well known publisher, has invited Francis J. Heney to visit at his beautiful home, "Miramar," while conversing from the recent cowardly assault and the probabilities are that Mr. Heney will accept the invitation.  
The Scripps place is a beautifully located hacienda near La Jolla, fifteen miles from San Diego.

## MEN!

The greatest asset you have is your strength. You can't afford to give out. It is a vital necessity that you have your nervous and muscular system in perfect order to withstand the constant wear and tear of your daily work.

The finest tissue builder and strength creator is Vinol, a Cod Liver preparation that has the greasy, nauseating oil eliminated—only the valuable medicinal properties being combined with peptonate of iron. Its use will keep you in health and strength.

**DEBILITY**  
results from a weakened condition due to imperfect digestion, lack of nutrition or overwork. Vinol strengthens the digestive organs, creates a healthy appetite and makes new blood. You lose that fatigue, weakness and run down feeling when you take Vinol.

**NERVOUSNESS**  
Is a complaint that can be readily overcome by using Vinol. It repairs broken down nerve tissue and builds strong, healthy nerves that enable you to withstand the worries and annoyances unavoidable in business.

**VINOL QUICKLY CURES A COLD AND STOPS A COUGH**

**BRAIN FAG**  
won't attack you if you repair used-up nerve force with Vinol. Vinol puts strength into your system—it gives you vitality and energy—it nourishes your brain and body and keeps you in a perfect state of health—it quickly re-establishes strength after any severe illness.

**DYSPEPSIA**  
is due to derangement of the digestive organs and their inability to assimilate nourishment. Vinol strengthens the overtaxed and weakened digestive nerves and helps your stomach do its work.

**YOUR MONEY BACK IF VINOL FAILS TO HELP YOU**  
**Geo. H. Monroe Co., Fresno Cal.**  
And at the Leading Drug Store in every Town and City in this State.

## INVESTMENTS IN MANY ROADS

(Continued from Page 1.)

did not fail to say everything they could think.  
Rockefeller was told that Virgil P. Kline, who afterward had been at Standard Oil attorney, was then counsel for Standard Oil, and that his brother, William, had preferred this form of investment.  
Twelve Millions on Loan.  
Rockefeller was asked about the large amounts of money which the Standard Oil company had taken out of the stock exchange and that it required from a banking interest and that of necessity it kept a large amount of money, which it loaned out but which could always be obtained by the Standard Oil company loaned out about \$12,000,000, but no larger sum than that.  
Kellogg reverted to the question of Mr. Rockefeller's investment in railroad bonds at the present time.  
Objection was made by counsel and Kellogg said he could not give a statement about his holdings of bonds. He added:  
"I do not buy stocks and permanent hold them, as I do the bonds. I have no large holdings in railroad shares today except in two or three railroads. I have held bonds of the New York, New Haven and Hartford, none of the Southern Pacific and none in the Texas Pacific and Colorado Southern, and about 500 shares in the Erie first preferred."

Rockefeller was asked if he had made it known to any one at that time that he had an interest in the railroads included in the trust agreement of 1878 and if it was not a fact that this agreement was kept secret while he was combining the companies. "I cannot say, but I think it must have been known to a number of people outside of those who signed it," replied Rockefeller.

"It is not a fact that Mr. Archibold, Mr. Elmer and others in 1878 and 1880 made affidavits and public statements that the Standard Oil company of Ohio had no interest in the subsidiary companies."  
"I could not say anything about the statements, they may have made," Rockefeller was asked if he had not made an affidavit that the Standard had made contracts with railroads whereby the Standard had obtained rebates for guaranteeing a certain volume of oil. He did not recall.

"I am not a director in some railroads in the U. S., but at this moment I do not recall a railroad in which I am a director."  
"Are you largely interested in railroads over which the Standard Oil company is doing business?"  
"I am an investor. I may have stock in a railroad company over which oil shipments may be made."

Kellogg asked Mr. Rockefeller if he was not interested in Wisconsin Central and other railroads in which certain directors of the Standard Oil were also directors.  
"I own bonds in the Wisconsin railroads."  
"Were you interested in the stocks and bonds of the Pennsylvania?"  
"No, excepting a different time a small interest in the bonds. I may have considerable interest in the bonds. My stock holdings are inconsiderable. I presume I may have stock."

Rockefeller in reply to a question, said:  
"I may be a director in some railroads in the U. S., but at this moment I do not recall a railroad in which I am a director."  
"Are you largely interested in railroads over which the Standard Oil company is doing business?"  
"I am an investor. I may have stock in a railroad company over which oil shipments may be made."

Kellogg asked Mr. Rockefeller if he was not interested in Wisconsin Central and other railroads in which certain directors of the Standard Oil were also directors.  
"I own bonds in the Wisconsin railroads."  
"Were you interested in the stocks and bonds of the Pennsylvania?"  
"No, excepting a different time a small interest in the bonds. I may have considerable interest in the bonds. My stock holdings are inconsiderable. I presume I may have stock."

## DRAMATIC CLUB GIVES RURAL PLAY

Clever Young People Give Exhibition of  
Historic Talent at Parish  
Hall.  
Last evening the members of St. John's Dramatic company gave the first performance of "New England Folks." The piece was ably put on, each one in the cast being a capable hand. The comedy end was by Peter Payson with Joseph Bennett as Peter Payson and John P. McSherry as Peter Payson. John P. McSherry was his old self and was a favorite from the beginning. His wife, the former May Phillips, sustained the leading part in a manner that won much applause. A prima donna, the actress, played the "ancient" with a happy perfection. The second performance will be given tonight in Parish Hall.

## COALINGA ATTORNEY ACQUITTED ON CHARGE

Judge Graham Finds Henry Richmond  
Not Guilty of Embezzlement.  
Attorney Henry Richmond of Coalinga was yesterday acquitted of embezzling from a client, C. K. Ferguson, of Hanford. The case was taken under advisement by the court a week ago, a decision being rendered yesterday.  
The court found that Attorney Richmond had not appropriated the fees given to him by Ferguson for an appeal, inasmuch as the attorney sent the papers for such a length of time that the paper for such a length of time that an appeal could not be taken when the documents were again in the hands of Richmond.

## NIGHTWATCHMAN FINED \$10 IN POLICE COURT

R. P. Russell Pleads Guilty to Charge  
of Disturbing the Peace.  
Nightwatchman R. P. Russell was yesterday fined \$10 by Police Judge Kellogg for disturbing the peace last Friday night. The complaint was sworn to by Patrolman Helms, Russell pleaded guilty to being drunk and raising a disturbance on the sidewalk in front of a Mariposa street saloon. Charles Hummer, arrested in the south fork north larceny, was given 45 days in the county jail by the same court, after the defendant had entered a plea of guilty. The charge was against a quantity of brass from the Southern Pacific company in this city. The value of the brass was \$18.  
The value of the brass was \$18. The value of the brass was \$18. The value of the brass was \$18.

## TRIO OF PRISONERS DID NOT CONTRACT SMALLPOX

Harry Robbins, John Adams and W. L. Johnson, the prisoners in the county jail who were sent to the post house on the order of the county physician, because a mild case of smallpox was found in the jail, were returned from the isolated houses near the hospital yesterday. After being detained for a week it was found that the trio had not contracted the disease.

## INDIAN HELD ON CHARGE OF MURDER

Tom Bacon, the Indian from Pine Ridge, who confessed to killing a fellow Indian, known as Charlie Armstrong, was yesterday held to answer to the superior court on a charge of murder by Judge Smith.

## CANNON DECLARES FOR A REVISION

But Says Question of Speech-  
ership Is Not of Immediate  
Importance to the Country.

WASHINGTON, Nov. 24.—Declaring that there would be no revision of the tariff and that there was no present need of "fretting" about the tariff, the speaker for the house in the sixty-first congress, Speaker Cannon arrived today from his home in Illinois for the approaching session of congress.  
To the newspaper men who greeted him he added that he believed the people would go the sort of tariff revision they had voted for.  
Cannon issued a statement later in which he said that he was not attempting to dictate to the house, and that through the system of election of members the people elected into law. Citing an example of hasty action leading to a misinterpretation of public sentiment in regard to the tariff bill, he expressed an opinion that no mistake would be made next summer in the revision of the tariff.  
In his statement the speaker said: "The election of the speaker for the sixty-first congress is yet a considerable distance in the future. When that congress is able to assemble, which I presume will be some time in March, the republican members of the house of representatives will hold a caucus, as has been the custom from the foundation of the party, and select a candidate for speaker, to be supported by the party at the organization of the house. I presume that the republicans will be perfectly competent to select their speaker and I do not see any present need for fretting about the matter."

"Of course there will be an honest revision of the tariff. We made the campaign on that issue and every republican member was elected with that in view. Every one of those republicans, without an exception, will, I believe, strive to the best of his intelligence and ability to attain the tariff results desired by the people. I am not a member of the tariff revision committee, and each one cannot have his own way altogether. There must be mutual concession and compromise, out of which will come the result which, on the whole, is most acceptable according to civilized and enlightened government. It is the barbarian who expects to have everything his own way without regard to his neighbor."

"Whoever is elected speaker of the next house must perform his duty as he sees fit, and I am not in a position to say what he will do. I am not in a position to say what he will do. I am not in a position to say what he will do."

"The representatives made no mistake when they elected the Dingley bill and I believe they will make no mistake in the bill which they will enact next summer, with the concurrence of the senate and the president. There is one thing of which you may be sure: Those representatives will do their duty to perform what the people want done, for they must go before the people in 1910 and account for their acts. The senator accounts for himself once in six years; the representatives account once in two years. The speaker of the house has a double accounting to his constituents, in his own district, and his associates in the house who elect him. No representative, and especially the speaker, will fail to do everything within his power to carry out the will of the people, and especially the will of the majority of the people."

"This is why I believe we shall get the sort of tariff revision the people voted for. I do not pretend to prophesy or dictate. It is and should be beyond any man's power to dictate to the house of representatives. I merely speak from long experience and the teaching of what I believe to be reason and common sense."

**SIXTEEN KILLED  
BY TORNADO**  
LITTLE ROCK, Ark., Nov. 24.—Reports received tonight from Western Arkansas, where a tornado swept portions of the country yesterday, show that the loss of life was not as large as at first reported, but the property loss will be heavy. The known dead number sixteen, while unconfirmed reports declared that six others lost their lives as the result of the storm. The verified reports place the number of injured at twenty-three, three fatally.

The known dead: Mrs. John Rossin, near Ozark and three children; Dick Hill, farmer, near Mulberry; — Havekins, woman, near McNeil; — Besham, wife and eight children, near Watahula.  
Fatally injured: J. Rossin, near Ozark; Mrs. L. A. Hill, near Watahula; — Jackson, farmer, near Van Buren.  
Two children are reported to have been killed near Mena.

**AGED WOMAN LOST;  
FOUND BY POLICE**  
Mrs. Wallace, 75 Years Old, Returned to  
Daughter By Authorities.  
A woman, named Mrs. Wallace, aged 75 years, wandered away from the almshouse yesterday afternoon and was reported lost by the superintendent of the institution. About 7 o'clock last evening Mrs. Wallace was found by Patrolman Walter Johnson and taken to the home of her daughter, Mrs. Joe Rogers, on Santa Clara avenue between K and L streets. The aged woman had walked into town from the almshouse, a distance of two miles, in search of her daughter's residence, but becoming confused failed to find the house and started on her journey wandering aimlessly around the streets until found by the officer.

**MORE STOLEN WHEELS  
OF MILTON SEELEY'S FOUND**  
After a search of the home of Milton Seeley, the 17-year-old boy of Easton, who was sent to the reform school for stealing Patrolman George Gooding's bicycle, Detective Ben Dierath and Officer Harry Knight yesterday found three more bicycles that had been stolen at various times by Seeley and pointed in the horns of his country home. The wheels were taken apart in order to erase identification as much as possible.

## Timely Offers in Comforters and Blankets

## The French DYE WORKS

A complete dyeing and cleaning establishment that meets every requirement of man or woman.

We have installed the very best machinery money could buy. We employ the most skilled workmen we can find. We employ twice as many people as any other cleaning and dye works in Fresno.

We clean and press men's and women's clothing, clean and restore to their original beauty women's evening dresses, furs, opera coats. We do artistic dyeing. We have never had a complaint in this respect from any work we have ever done. Our wagons will call for your work and it will be returned to you promptly.

You will find by entrusting your work to us—we will save you money and your clothes will give you twice the service you ordinarily get.

As a matter of economy you can not afford to miss taking advantage of our offer to save you money.

## NO REDUCTION ON FRUIT TARIFF

Prediction Based on Poll of Committee.

M. F. Tarpey Urges Increase on the Zante Currant Schedule.

According to a Washington dispatch in the Examiner, there will be no reduction in the tariff protection to California fruits. This statement is based on a private poll. M. F. Tarpey's efforts to have the tariff on Zante currants raised 12 cents are given. The dispatch is as follows:

There will be no reduction in the present tariff protecting the citrus fruit growers of California in the new tariff law to be enacted next spring. That statement can be made with complete confidence by the "Examiner" correspondent of the majority members of the ways and means committee. By private poll is meant what the majority members now hold, but will not say officially, on the showing made by the fruit growers of California and by the manufacturers and producers of California fruit products.

All of the Californians who came here to ask for protection to their industries have gone home with the exception of A. G. Kendall of San Bernardino.

M. F. Tarpey, representing the Fresno Chamber of Commerce, urged the increased tariff on currants, saying:

"Under the stimulus of tariff protection the raisin industry of California, the center of which is Fresno county, has grown from nothing to the enormous quantity of 130,375,000 pounds in the year ending 1925. These raisins were produced under economic conditions entirely dissimilar from the conditions obtaining in foreign countries where raisins and so-called currants are produced."

"The California raisin comes in competition with raisins from Spain and so-called currants from Greece and Asia Minor, where raisins and currants are produced with a labor charge of from 25 cents to 40 cents a day, as against \$1.50 to \$1.75 and even \$2 a day unit by the California growers, and with a freight charge from European and Asia Minor ports to American Atlantic seaboard ports of \$2.75 a ton as against the freight charge to California growers from California ports to Eastern points of \$2 a ton (which it is announced will be raised to \$2.2 a ton on the first of December)."

Tariff a Necessity.

"Under such conditions without equivalent tariff it would be impossible for the California raisin growing industry to exist, and we wish to point the committee's attention to the fact, at least as far as raisins are concerned, in the oft-repeated statement that the consumer pays the tariff."

"The fact that the price of raisins, from a cost to the consumer of from 15 to 25 cents a pound prior to the imposition of a tariff and before the commercial production of raisins in California, was forced down to 12 cents a pound, the average market price in the center of the industry in Fresno, California, for a long series of years, proves the saying a fallacy where producers compete for a market for their product."

"The reason for this is obvious. The competition of upward of 3,000 growers, the conditions now existing in California and the producers of raisins from approximately 100,000 acres of land (giving an average of about 30 acres to the grower), who compete with one another in the disposition of their crops, keeps the price always at a small advance above the actual cost of production."

Often Below Production Cost.

"It often happens in the eagerness of competition that prices go even below the cost of production; the consumer invariably reaping all the benefits. The California raisin grower is seriously injured and prejudiced by the competition of the so-called Zante currant, which, in fact, is not the product of a current bush, but is the product of a vine and is really a grape, and in its dried condition a raisin."

"We request that the coming tariff schedule provide that all so-called 'currants' be labeled and marked as seedless raisins. This product has been admitted at a tariff of 2 cents a pound. An additional tariff of 12 cents a pound is required to make the duty the same as on the raisin."

"The importations of foreign raisins in 1925 amounted to 20,286 tons, of a value of \$1,281,861, while the production of California raisins at the same time amounted to only 800 tons, of a value of \$550,000."

"The importations of foreign raisins since 1887 have steadily decreased, while the production of California raisins has steadily increased, showing in 1907 that the foreign raisin imports had declined to 1,933 tons, of a value of \$364,463, while the production in California had increased to more than 65,000 tons, of a value of \$4,225,000."

"Your attention is most especially called to the very different condition shown in reference to the so-called 'Zante' currants. Their importation has steadily increased from 12,533 tons in 1898 to 10,190 tons in 1907, the value of the latter being given as \$1,740,841. These currants, therefore, have increased in quantity and value, while the production of California raisins, and that, we believe, is owing entirely to the lower duty upon those so-called 'currants,' permitting them to be imported at less than raisin duty and coming into direct competition with the domestic producer. Were this remedy, the seedless raisins of California production would, we feel convinced, shortly take their place and thus enlarge the market of California raisins to that extent."

Want Currant Duty Increased.

"We, therefore, require first, that present duty of 2 1/2 cents per pound on raisins be continued and made to read to include all raisins, and that the present duty on currants of 2 cents be raised 12 cents a pound, and that they be placed on a parity with all other raisins and that when imported they be required to bear their true appellation of 'seedless raisins.'"

Mr. Underwood—"What is your cost of production of raisins at the point of sale?"

Mr. Tarpey—"The cost of production differs with every year and every piece of land and all the conditions. One year you may have a crop that will be twice as large as another year you may have a very large crop and your expenses may be more than they were the previous year. Of course, you gentlemen who are engaged in agricultural pursuits do not appreciate that as much as I do. I am growing the stuff. Taking one year with another, the cost will be in the neighborhood of 2 1/2 to 3 cents. A great many people have gone out of business because their land did not produce enough to justify them in continuing in the business."

Mr. Underwood—"Two and one-half to three cents a pound is a fair estimate of the cost of production at the point of sale?"

Mr. Tarpey—"Yes, sir; that is, delivered in the packing house."

Mr. Underwood—"What do you sell them for?"

Mr. Tarpey—"We sell our product for that and in that neighborhood. When I left there was quite a discussion as to whether they would get 3 1/2 or 2 1/2 cents and some of the kind of prices, but there was very little selling and what was selling was in the neighborhood of 3 cents."

MARE ISLAND NAVY YARD, Cal., Nov. 24.—(By Associated Press.)—The United States marine corps has arrived at Mare Island from the League Island navy yard and assumed command of the marine barracks here.

## RUN OF PLAYS FOR THE BARTON

Indians, Soldiers, Scouts and All Tonight.

Tomorrow "Paid in Full" Will Give Matinee and Evening Performance.

Lincoln J. Carter, has written an interesting play, cleverly depicting frontier life, which comes to the Barton tonight showing the American aborigine as he lives in his wigwam, his habits, mode of living, his character and temperament. The name of this play is "The Flaming Arrow."

The company is said to include sixteen full-blooded Indians, together with cow-boys, scouts and an Indian band with the attraction. The play is not, as might naturally be expected, a blood and thunder production, abounding in gun shots and other hair raising episodes, but is said to be a faithful picture of life on the frontier, and in one of the famous government posts. It tells a beautiful love story, is replete with thrilling scenes and its characters are all taken from living prototypes, true in character and costume. As "Way Down East" is a typical play of the old East, so "The Flaming Arrow" is of the far West. The story of the love of Chief White Eagle for Mary Fremont, daughter of the commander of the post, is founded on fact. The prices will be 25c, 50c and 75c.

"Paid in Full."

It is with more than ordinary pride and pleasure that the management of the Barton announce the return engagement tomorrow (Thanksgiving) matinee and night of the greatest dramatic success of the last twenty years, the great American play by Eugene Walter, "Paid in Full," which under the management of Wagenhals and Kemper has for practically a year past been the season's amusement sensation, not alone of New York city, but of Chicago. At Wagenhals and Kemper's Astor Theater, New York, and at the Grand Opera House, Chicago, the play ran last season for ten and six months respectively, invariably to crowded houses. "Paid in Full" will be presented here with a brilliant cast of specially selected players and with the Astor theater production which is a triumph of stage realism. The play itself is one compelling attention through every moment of its action.

Corbett as Comedian.

Those who witness the performance of "Facing the Music" at the Barton Saturday with James J. Corbett in the title role, will be surprised at the proficiency of the former ring master in comedy. The characters of "Smith" in "Facing the Music" is said to be the best thing Corbett has ever attempted, both from an artistic and financial standpoint. He is under the direction of the tour of this season will be conducted, has surrounded his star with an excellent cast and a most spirited entertainment is promised. The sale of seats opened this morning.

"Just Out of College."

Modern conditions in social and business life—but principally in the latter—form the theme tendered by George Ade for his latest comedy "Just Out of College," which will be presented at the Barton next Sunday evening. At the Barton, Mr. Ade's latest work possesses a more tangible story than some of the author's previous efforts. Ethically the betraying of a benefactor by the person he has aided is deserving of little pity or palliation. In "Just Out of College," the betrayal takes on the assumption of a huge and hearty joke, approved and applauded by the hearers. Given a check for \$20,000 by Septimus Pickering, his contemplated father-in-law, who half hopes to be rid of him by loading him the money. Ed-ward Washington Swinger, the college youth, desirous of accumulating a fortune, enters into partnership with a female manufacturer of pickles and by dint of nerve, plausible address and the risking of all his money as a secret partner in the mysterious rival pickle venture, succeeds in selling out to his relative and rival and winning the hand of the daughter. The next sale opens tomorrow morning.

"Land of Nod."

Tomorrow morning the advance sale of seats for "The Land of Nod" opens and there is reason to believe that there will be an unusual demand for the performance which will be given at the Barton next Monday evening. When this production of extravaganza was given here last season it made a hit. It is one of those great, big, elaborate affairs which are characterized by an immense equipment of beautiful scenery, costumes, electrical and other accessories, and it has the distinctive charm of being prodigal in song-hits of humor and in the best kind of music stick in the memory and insist upon being hummed and whistled a long time after they are heard. "The Land of Nod" furnishes the kind of entertainment which most people thoroughly enjoy.

Throughout there is something going for performance that the spectator wholly attentive, and laughter, applause and surprise are constant companion emotions all the time the curtain is up. Last season's cast remains practically unchanged, which means the appearance of an organization numbering up to a score of seventy-five comedians, singers, dancers and specialists of decided ability. Among those who will be pleasantly remembered are Kne-son and Miss Grace Drew. The sale opens tomorrow.

tion differs with every year and every piece of land and all the conditions. One year you may have a crop that will be twice as large as another year you may have a very large crop and your expenses may be more than they were the previous year. ### MINING PROMOTER IS KILLED BY A CAVE-IN

SAN ANDREAS, Cal., Nov. 23.—Emory W. Chapman, a prominent mining promoter of this state, was caught by a cave-in in the Chapman mine, half a mile from this town yesterday afternoon. Twenty-five men working in relays in caving ground found the body after seven hours' work, but life was extinct. The deceased leaves relatives in Oakland, where interment will take place. A coroner's jury exonerated the management of the mine from blame.

### ONE MISSOURI VOTE MAY GO TO BRYAN

JEFFERSON CITY, Mo., Nov. 23.—A possibility that the electoral vote of Missouri may be divided between Taft and Bryan arose today when it was discovered that one Bryan elector received more votes than the lowest Taft elector. Whether Bryan will be given this vote depends upon a decision which Governor Folk now has under advisement.

### FOOTBALL "STAR" APPEARS IN PULPIT TO PREACH TEMPERANCE

BOSTON, Nov. 23.—Whether or not his spirit was humbled by Harvard's football victory Saturday, "Tad" Jones, one of the stars of the Yale team last year, appeared in a Boston pulpit yesterday and talked for half an hour to the congregation. He emphatically denied that he is a minister or that he intends to be one in the future, but he spoke earnestly to the members of the Dudley street Baptist church with temperance as the foundation of his little sermon.

Jones also referred to Saturday's game and after bemoaning his alma mater's defeat, said:

"There was sorrow in the Yale camp last night, but this I know: They did not drown their sorrow in much drink, as other teams losing this game in recent years have been known to do."

### MAGNESS' WIFE WILL LIVE NEAR HIS PRISON

PHILADELPHIA, Pa., Nov. 23.—Charles G. Magness, husband of a daughter of the late United States Senator Graham of Maryland, recently convicted of desertion from the United States navy, left the Philadelphia navy yard today for Portsmouth, N. H., where he will serve a year in the government prison.

Magness was met by his wife, who accompanied him to Portsmouth. Mrs. Magness will reside in Portsmouth in order to visit her husband as often as the rules of the prison permit.

### BATTLING NELSON ARRESTED FOR ATTENDING DOG FIGHT

CHICAGO, Nov. 23.—Batling Nelson, the prize fighter, was arrested in Burnham addition on warrants charging disorderly conduct and resisting an officer. The charges come as a sequel to a dog fight which was raided at the village of Burnham, near Chicago, last night. Nelson, it is said, being one of the spectators, escaped while other arrests were being made.

# FOOTBALL All Is In Readiness For Thanksgiving Gridiron Battle BASEBALL Formation of S. J. V. Winter League Is Now a Certainty ATHLETICS

## PROPOSED WINTER BALL LEAGUE WILL BE FORMED

Organization to Consist of Clubs From Coalinga, Visalia, Madera and Fresno—Meeting of Representatives Here Friday

Plans for the formation of a winter ball league in the San Joaquin valley are being pushed forward with tremendous strides, notwithstanding reports to the contrary. It was announced yesterday that a special meeting of representatives of the respective clubs from Coalinga and Madera will be called for next Friday in this city when the manager of the Fresno Bruins, Bert Maul, and Captain Ray Duncan will confer with the visiting managers. From Coalinga will come W. W. Ayers, a druggist of the oil town; Mike Nevins of Visalia, who played in the Texas league during the past season, and C. F. Preciado of Madera.

Arrangements are to be perfected at the meeting for every detail in connection with the proposed league. Officers will be elected and a schedule of games will be drawn up. The league will be organized to govern the organization will be formulated and the opening date set, which will probably be next Sunday, when Coalinga and Fresno line up at Recreation park and Madera plays at Visalia. Different managers will be elected and a schedule of games will be drawn up. The league will be organized to govern the organization will be formulated and the opening date set, which will probably be next Sunday, when Coalinga and Fresno line up at Recreation park and Madera plays at Visalia.

It is planned to play only one game a week, although a holiday contest will be included in the schedule. The league will continue until February of next year, when the local grounds will be given over to the California league club for the usual spring practice work. Therefore the schedule will consist of from twelve to fifteen games.

Players who are regular members of the Fresno State league club during the season will likely be barred from the Bruins' line-up, and only amateurs or semi-professionals will be permitted to compete. A stipulation may be made that no player will be granted a salary at the meeting, however, to the professionals who are members of the Visalia and Fresno clubs at the present time. This ruling would not forbid Mike Nevins or Miller of the Visalia club to change to Fresno, Woodfolk, Carl Maul, Ray Tufts or Mike Fisher of the Bruins from participating in the winter league series.

The schedule will also be arranged so as to give each of the four towns the right to play at home. A certain number of games as possible. The series will be on the same order as that of last winter. No league was formed before and the players consequently were not under the jurisdiction of the league officials, as they were in this season. In the previous seasons, the managers of the respective valley clubs have simply arranged for games with other valley organizations and played for expenses or a 50 and 40 cent on the gate. In the league the division of the receipts will be arranged on a basis of a certain percentage for the home club and the remainder will go to the visiting team.

It is thought that with proper arrangement the winter league can finish its season with a fair-sized attendance by the treasury thereby affording each of the players a good-sized out, something that has been lacking in unorganized ball. When the clubs are compelled to shift for themselves

## CRESSINA WINS CARTER HANDICAP

Surprise Sprung on Emeryville Race Course.

Montgomery, a Heavily Played Favorite, a Strong Contender for First Place.

OAKLAND, Cal., Nov. 24.—Cressina, trained out on a selling race last Saturday by E. J. Ramsey, won the Carter handicap at Emeryville from a high class field today. The mare was quoted at 13 to 1, and her victory came as a great surprise. Montgomery, carrying an weight, was thought to stand a good chance to win, but she was out of the race at the start. W. T. Overton went to the front but tired in the stretch and Cressina assumed the lead. In a drive she won by a neck from Montgomery. Third money went to Astronomer.

Marion Brown played from 12 to 1 to 5 to 1, scored an easy win in the first. Madman and Bellweather were two favorites to land in front. After having a lead of twelve lengths in the fifth (Cressina) stepped and was beaten by Remembrance. El. South led up Remembrance from \$500 to \$1,000 and secured her.

Emeryville Results.  
First race, six furlongs, selling—Marion Brown, 109 (Buxton) 8 to 1, won; Madman, 109 (Buxton) 8 to 1, second; Remembrance, 109 (Buxton) 8 to 1, third. Time, 1:15 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

Second race, five furlongs, purse—Madman, 104 (Schilling) 7 to 20, won; Bellweather, 104 (Schilling) 12 to 1, second; Little June, 97 (C. Russell) 12 to 1, third. Time, 1:01 3-5. Strike Out, Angel Face, Otter and Ocean Queen also ran.

Third race, six furlongs, selling—Bellweather, 109 (Buxton) 12 to 20, won; Deutchman, 110 (Buxton) 12 to 1, second; Collector Jessup, 110 (Buxton) 10 to 1, third. Time, 1:11 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

Fourth race, mile, Carter handicap—Cressina, 104 (Schilling) 13 to 1, won; Montgomery, 117 (Schilling) 12 to 1, second; Astronomer, 106 (Clyton) 2 to 1, third. Time, 1:41 2-5. W. T. Overton and Frank Fitter also ran.

Fifth race, mile and 70 yards, selling—Remembrance, 100 (Russell) 5 to 1, won; Cressina, 109 (Buxton) 8 to 1, second; Little June, 97 (C. Russell) 12 to 1, third. Time, 1:46 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

Sixth race, six furlongs, selling—Anna May, 109 (Buxton) 5 to 1, won; Madman, 109 (Buxton) 8 to 1, second; Remembrance, 109 (Buxton) 8 to 1, third. Time, 1:15 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

Seventh race, six furlongs, selling—Anna May, 109 (Buxton) 5 to 1, won; Madman, 109 (Buxton) 8 to 1, second; Remembrance, 109 (Buxton) 8 to 1, third. Time, 1:15 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

Eighth race, six furlongs, selling—Anna May, 109 (Buxton) 5 to 1, won; Madman, 109 (Buxton) 8 to 1, second; Remembrance, 109 (Buxton) 8 to 1, third. Time, 1:15 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

Ninth race, six furlongs, selling—Anna May, 109 (Buxton) 5 to 1, won; Madman, 109 (Buxton) 8 to 1, second; Remembrance, 109 (Buxton) 8 to 1, third. Time, 1:15 2-5. St. Joe, Molar, Newwood, Nappa, Hildford, Kokomo, Royal N. and Yellowstone also ran.

## LOCAL ELEVEN IN PERFECT CONDITION

Fresno Hi Has Even Chance Against Berkeley.

Coach Warner Has Team in Best Condition of the Year for Battle.

Tomorrow afternoon on the Recreation Park grounds, the 1908 purple and gold squad of the Fresno High school will attempt to lower the colors of Berkeley Hi. The Thanksgiving battle for supremacy on the checkerboard field is the big event of the year in football circles of the local school. Manager John Morgan anticipates the largest crowd of the season.

The local team worked out in some of their final practice and signal preparation, yesterday afternoon and the showing made by the boys was highly encouraging to both Manager Morgan and Coach W. Warner.

"The boys are in the best condition this year," said Manager Morgan yesterday "and although I fully expected Berkeley to give us an awful walling when I arranged for the big game, I changed my mind when I saw the eleven work out on the field yesterday and again today."

Judging from the fast work of the squad and the great condition they are in, we will enter the game Thursday afternoon with more than an even chance to finish on his end of the final score. In my estimation the team that wins will do so by not more than one touchdown, and I even anticipate a tie, should the Berkeley school have as strong an eleven as I think they have. If they are weaker than last year, Fresno will win by about two touchdowns.

Every member of the Warner school informed Captain Floyd Lanning yesterday that he is in perfect trim and will enter the game feeling more confident of winning than at any other time this year.

The kick-off is scheduled for 3 o'clock and as the battle will be the only attraction in local sport on that day, with the exception of harness races at the county fair grounds, a tremendous crowd of supporters of the purple and gold should face the seating capacity of Recreation park field.

Visalia won from Coalinga by a 4 to 1, in a pitcher's battle between Ike Tufts and Pet Phillips.

## POST-SEASON BALL PLAYED 24 YEARS

New York Giants Beat St. Louis in 1888.

Cleveland Makes Good Showing—First Game Between Providence and Mets.

Post-season games were unheard of until 1884, when the Providence team, winner of the National League championship and the Mets, winners in the American Association, played three games at the Polo grounds, New York. Providence won them all—6 to 0, 5 to 1, and 11 to 2.

The next year the Chicago Nationals and the St. Louis Browns—winners respectively in the National and the American Association—played a seven game series, the first being played in Chicago, the next three in St. Louis, the fifth in Pittsburgh, the sixth in Cincinnati, and the seventh in Chicago. Each team won three games and one was a tie.

In 1888 the Chicago and St. Louis teams again played off, and Comiskey's team won four games to Anson's team's two. The pitchers for Chicago were St. Louis, Charles, Clark and Hudson.

Detroit, winner of the National League pennant, and the self-same St. Louis Browns fought it out in 1887, and Detroit won ten of the fourteen games, which were played in St. Louis, Detroit, Pittsburgh, New York, Brooklyn, Philadelphia, Boston, Washington and Baltimore. The receipts of these games were \$12,000.

New York Beat St. Louis In 1888 the New York Nationals beat the St. Louis Browns in four games for the world's championship. The total receipts were \$24,362.

In the post-season games of 1889 the New York Nationals won six of the nine games played with the champion Brooklyn team of the American Association. Receipts were \$12,000.

The advent of the Players' League, generally regarded as an outlaw organization, detracted from the interest in the post-season series of 1890, between the St. Louis Browns and the Brooklyn team of the National League, and the Louisville of the American Association. Each team won three games, and one was a tie.

Nothing in a post-season way happened in 1891, but in 1892 there was the "double-series" championship of the new twelve-club National League—one season ending in July and the other in October.

Boston won the first series and Cleveland the second. In the play-off the game came out in this way: Boston vs. Cleveland, 0-0; Boston vs. Cleveland, 4-2; Boston vs. Cleveland, 3-2; Boston vs. Cleveland, 4-0; Boston vs. Cleveland, 12-1; Boston vs. Cleveland, 8-3.

Cleveland takes four of the four series for the Temple Cup in 1894, 1895, 1896 and 1897 attracted much attention.

In 1894 New York won four straight games from Baltimore.

In 1895 Cleveland won four of the five games from Baltimore. The net receipts were only \$14,752.

In 1896 the Baltimore won four out of five games from Boston for the Temple Cup.

From 1897 until 1902 there were no post-season games. Then the Boston Americans won five of the eight games played with the Pittsburgh Nationals for the world's pennant. The receipts exceeded \$50,000.

In 1903 the New York Nationals won four out of five games with the Athletics. The total receipts were \$58,435.

The outcome of the series between the White Sox and Cubs in 1906, and the Cubs and Tigers in 1907, is familiar to baseball fans.

The six games at Chicago in 1906 resulted: October 9—Cubs 2, White Sox 1; October 10—Cubs 1, White Sox 1; October 11—Cubs 3, White Sox 0; October 12—Cubs 1, White Sox 0; October 13—Cubs 6, White Sox 0; October 14—Cubs 8, White Sox 2.

Last year the games came out in this way: October 8—Cubs 3, Tigers 0; October 9—Cubs 3, Tigers 1; October 10—Cubs 3, Tigers 1; October 11—Cubs 3, Tigers 1; October 12—Cubs 2, Tigers 0.

The players' share of the receipts in 1904 was \$23,491, and in 1907, \$54,023.

YOUNG PLAYERS WHO MADE GOOD IN EAST

The season just closed has been a great one for the young players in baseball.

In the National league one of the big features of the race was the showing of Pitcher Otis Crandall of the Giants, while in the American, young Frank of Detroit monopolized a lot of honors at short.

In Schenectady, picked up from the Newark club of the Ohio and Pennsylvania leagues, Jimmy McAleer, however he has the making of one of the greatest outfielders in the league, and Schwartz was out of the

## RACING BALLOON IN AIR AGAIN

"United States" Sails from Los Angeles.

Lands Safely After Successful Flight Over High Mountains.

LOS ANGELES, Nov. 24.—The balloon "United States," which ascended in this city at 10 o'clock yesterday morning for a test of the coast air currents, landed at Ehrenburg, Ariz., on the Colorado river nearly 250 miles from Los Angeles. This advice was received by telegraph this afternoon. The balloon landed yesterday afternoon about 4:30 Capt. Mueller, the pilot and a newspaper reporter named Hutchinson, who were in the basket, landed safely.

Just a Trial Trip. LOS ANGELES, Nov. 24.—The big racing balloon "United States," which ascended from Chutes park at 10 o'clock yesterday morning, with Pilot A. E. Mueller and a newspaper reporter in the basket, in an effort to locate a steady eastward air current that would carry them over the Sierra Madre mountains, has not been sighted since about 1 o'clock yesterday afternoon. At that hour the balloon was almost out of sight immediately above the city and sailing rapidly to the eastward. Unverified reports were received last night of its being seen in the neighborhood of the San Bernardino mountains. Capt. Mueller had no intention of making a lengthy flight on his present trip.

PRIZE FIGHTING IS MANUAL LABOR

San Francisco Court Upholds Promoter Coffroth.

Scheduled Ketchel-Papke Bout on Thanksgiving Day Will Be Held.

SAN FRANCISCO, Nov. 24.—The application by John J. Gleason for an injunction to prevent Papke and Ketchel from fighting on Thanksgiving day at the suggestion of James J. Coffroth's club was refused by Judge Seawell today. The contest will therefore be held as scheduled.

When the case was called, the court room was filled with attorneys, promoters, pugilists and others interested in the outcome. On behalf of Promoter Gleason it was argued that the court had the authority and would be justified in restraining Coffroth from taking any action calculated to divert patronage from the applicant. Judge Seawell declined to entertain any arguments relating to any matter except the issuance of an injunction against the participants in the proposed exhibition, and after the hearing had progressed but a few moments it was evident that the decision would be based upon well established authorities.

The attorneys for Promoter James Coffroth contended that the pugilists had the right to dispose of their talents to the best advantage, and in denying the application, the court held that an injunction could not be issued for the purpose of restraining any person from the performance of manual labor or personal services.

gave a good portion of last year, but showed he possessed the class in his work.

If Purcell, the youngster picked up by the White Sox, could only hit, he would surely hold down the third base job for Connelley. Purcell has good superior as a fielder, but is highly creditable with the big stick, and has hopes for the spring, and may start him regularly next year.

Connie Mack is delighted over two of his pickups. Strunk of Shamokin and Lapp of Syracuse. Strunk is only 19 years old, but shows great promise. He is a clever fielder, stands nicely at the plate, and can run the bases in regular 30th style. Lapp looks like a corner behind the bat, but lacks experience.

Walter Blair secured from the Williamsport team, promises to be a valuable man for the Yankee behind the bat. A year of experience has added much to Blair's worth. Gardner and Drew also look mighty good.

This Speaker, the Boston outfielder, in a few games this fall, was this place as a regular. Speaker was secured from the Little Rock team, and led the Southern league in batting.

## FRESNO HORSE'S COAT OF BLACK TURNING WHITE AFTER EIGHT YEARS

The horse depicted in the above illustration is not a triok horse, fresh from the sawdust ring of a gigantic circus, but is what the owner thinks a survivor of the ancient breed of Arabian stock.

The horse with the unique coat is owned by L. DeGraene, an expressman residing at 1031 Iowa avenue.

The horse was purchased by DeGraene three years ago, when he first entered the drayage and express business in Fresno. The animal was then 6 years of age and his color a jet black. Not a white spot was noticeable until about eight months ago, when the white rings and varied spots began to make their appearance among the white hair. Since then the variations, some of them having the resemblance of fancy lace, have grown with wonderful rapidity. The majority of the white rings and spots are on the right side. No reason can be assigned by the expressman other than "Bill," as he calls the horse, takes back to his great grandfather, who might have been an Arabian steed of black and white.

The owner says he might be able to sell the horse to the next circus that comes along as a California zebra.
